

T4edu's Social Responsibility Policy

Our contribution to maximizing our participation in sustainable development

This policy provides a brief overview of T4edu's legal and voluntary commitment toward its social responsibility among its employees, customers, stakeholders, and partners such as suppliers, environment-friendly practices, and the entire community by focusing on the following key factors:

1. Staff – T4edu is proud of its team and believes that they are its most important assets. T4edu always seeks to foster the culture of respecting values, providing good working condition and equal opportunities for everyone, raising their satisfaction, providing training, and developing their professional and personal competences to achieve greater benefits and enhancing their life quality and well-being for them as well as their families’.
2. Responsible Employer – T4edu has always been keen to ensure health and safety for both its employees and properties wherever it is applicable. It also provides, in all its activities and operations a safe and healthy working environment that encourages innovation and excellence.
3. Environment-friendly practices – we are not taking advantage of the corporate nature and scope of work as service provider to clear our responsibility toward environmental management practices. However, we seek to enhance our environmental

management based on the nature of our work, whereby we are keen to rationalization paper usage, automate most of our communications and transactions and use waste separation containers to be used for recycling.

4. Relationships with customers – T4edu always seeks meeting customers’ needs and requirements, and it provides a quality guaranteed service, which substantially ensures the achievement of all related legislative considerations.
5. Suppliers and partners – T4edu deals with suppliers fairly and seeks to lead its partners in the social responsibility practices by encouraging them to enhance their social responsibility services, products, and partnerships with T4edu’s social responsibility programs.
6. Social investment- T4edu concept “giving and participation’ with the community through sponsorship programs, funding, and community support by utilizing all its scientific and practical expertise and potentials as well as the Legal restrictions of those programs, all of which is well-explained in the policy of sponsorships and community contributions.
7. Ethics charter – “T4edu top choice” is encourage a high level of professionalism throughout T4edu and enhance best ethical practices at all levels.
